Why you should fill in the questionnaire

How are you? While that's a question you frequently hear when visiting your doctor, you might not always know how to answer it, or even where to begin.
This questionnaire will help you to talk to your doctor about:

- how you are doing
- what you would like to change

What the questionnaire will cover
The questionnaire covers five topics relating to your life:
1. Physical health
2. Sense of meaning
3. Mental health
4. Daily life
5. Quality of life

How to complete the questionnaire
Answer all the questions yourself. Choose the answer that best suits you, and mark it with a cross.
If you would like to talk about it, then also put a cross under 'I would like to talk about this'.
After completing each topic, give it a number rating.
